REPUBLICAN STATE CONVENTION.

To the Republican electors of Pennsylvania,
The Republicans of Pennsylvania, by their duly
chosen representatives, will meet in State con-
vention Thursday, April 23, 1896, at 10 o'clock
a. m., in the opera house, city of Harrisburg, for
the purpose of nominating two candidates for
representative-at-large in Congress and thirty-
two candidates for Presidential electors, the
selection of eight delegates-at-large to the Repub-
lican National convention, and for the
transmission of such other business as may be
presented.

By order of the State Committee.
M. S. QUAY,
Chairman.
W. E. ANDREWS, Secretary.

COUNTY CONVENTION CALL.

Notice is hereby given to the delegates, who
attended the last Republican County Convention,
that in accordance with Rule 7, of the
Republican rules of Schuylkill county, a
convention will be held at Centennial Hall, Pott-
sville, on Saturday, April 4, 1896, at 10 a. m., for
the purpose of electing two delegates and two
alternates for the National Convention to be
held at St. Louis, Mo., on June 18th, 1896; and
also at the same time and place to elect delegates
and alternates to represent the several Repre-
sentative districts of this county to the State
Convention to be held at Harrisburg, Pa., on
Wednesday, April 23rd, 1896, in accordance with
the rules.

By the Executive Committee,
BUD W. FAYNE,
Chairman.

Shenandoah, Pa., March 19th, 1896.

LOUIS SALISBERY knows his business when
he refuses government assistance to an
Armenian relief fund. He doesn't propose
to discredit his past by any exhibition of
humanity.

SENATOR HALE has achieved the unenvi-
able distinction of having received the
congratulations of the Spanish Club of
Havana upon the part he has played in
blocking the Cuban resolutions.

QUITE a number of our exchanges are still
advocating annual sessions of the Pennsylv-
ania Legislature. According to the quality
of legislation this body has been giving us,
especially that bearing upon Schuylkill
county, one session in every five years is
sufficient.

PEOPLE who indulge in the tobacco habit
will be pleased to learn a war is on between
the dealers in the weed. Individual tobacco
manufacturers, having a capital of \$50,000,000,
have begun a war against the Tobacco Trust,
having a capital of \$10,000,000. They have
made a reduction of three cents a pound on
all brands of tobacco to all dealers.

It is reported that Gen. Weyler, finding it
impossible to carry out his contract to con-
quer the Cubans, is going to resign. This
would be recognition of Cuban belligerency
on his part. He knows more about the
Cuban insurrection than he did when he
took command, and much more about it than
the Spanish sympathizers in this country.

It is not so very long since Senator Vest
occupied a conspicuous and richly upholstered
chair in the throne room of the Cleveland
dynasty, but one cannot read the remarks he
made in the Senate concerning the decadent
monarch of the establishment without realizing
that the Missouri statesman has lost favor
at court. In the interest of harmony it may
yet be necessary to cast the obstreperous
Vest into a dungeon and keep him there
until he learns that, according to the ethics
of mugwumpery undefined, the King can do
no wrong.

THE state convention of Massachusetts will
be held next week, and from that time for-
ward the Reed movement will compete on
equal terms with the McKinley canvass.
Senator Lodge, who is Mr. Reed's most active
lieutenant, is writing the resolutions. He
will head the delegation to St. Louis and
will probably present Reed's name to the
convention. Following Massachusetts at
easy stages, will be the other New England
States, and thus the promise of an united
New England support for Reed will be re-
deemed. The field is arrayed against the
McKinley movement, and the latter are playing
for the nomination on not later than the
third ballot. When that stage of the game is
reached, however, Reed's friends believe
that he will be the most prominent man before
the convention.

CHRIS MAGEE is just now posing as a
moralist among the politicians of the state,
and "S. M." in the Philadelphia Evening
Star, accuses him of voting for Patterson. He
says: "I do not know whether Audenried
voted for Patterson or not. If he did it was
an error. I was as anxious for Penrose as
Audenried, but my party is my church, and
I voted with loyalty and cheerfulness for
Warwick. At the same time this quickening
of the Mayor's conscience was curious. I
remember that one of his closest allies in the
late canvass was Chris Magee, who not only
voted for Patterson, but supported him in his
paper, and turned the state over to the
Democrats. If I cared to make trouble I
could name others now high in the Mayor's
regard who followed the lead of Magee."

Not satisfied with his position in county
and state politics, William Wilhelm—he of
epistolary fame, both political and judicial—is
anxious to shine in a broader field, that of
national politics. Mr. Wilhelm has been
in correspondence with the six Republican
silver Senators who voted against the con-
sideration of the tariff bill in the Senate,
and as a result a conference was held in

Washington on Thursday night between
them and a number of leading manufacturers
of Philadelphia. The conference was
organized by choosing Senator Dubois as
chairman and Mr. Wilhelm as secretary. For
three hours and a half behind closed doors
the conference discussed the plan of offering
free silver and protection as a national issue.
Charles Heller Clark, editor of the Manu-
facturer, of Philadelphia, invited those
present to a meeting to be held in the latter
city at an early date. The movement for the
conference, however, appears to have been
conducted under a false pretense. Quite a
number of the Philadelphia parties attended
the conference under false representations
and protested against the scheme at the
meeting. They also claim that the true facts
were suppressed. Mr. Wilhelm now has the
floor.

Let the Good Work Go On.

EDITOR EVENING HERALD.—I observe
that many newspapers outside of our town,
as well as the papers and people at home, are
complimenting the teachers of our public
schools upon the relief they have afforded
deserving pupils from the fund established
through the King entertainment, and take
this opportunity to suggest that the teachers
push along their excellent undertaking,
make it permanent, and administer from
year to year (as long as the fund
can be sustained) to the wants of the
children whose future depends so largely
upon the care and training they receive in
the public schools. I would suggest that the
teachers make arrangements to hold three or
four entertainments next fall, one or two of
the King kind, a concert of an order some-
what above the ordinary, and a good, whole-
some lecture. I am sure that enough money
can be derived from such a course to enable
the teachers to do a great amount of
good work next winter on the same line
followed this year, and it will be much more
needed, as the schools will then be operated
under the compulsory education law and we
may expect to find in the ranks many chil-
dren to whom a pair of shoes, a cloak, or
coat, or a pair of stockings will be a blessing.
If the teachers will take hold of the project
as they did this year they can do a noble
work. With a corps of 55 active workers,
with the endorsement of the School Board
and individual support of its members, aside
from the support such a laudable undertaking
is bound to receive from a charitable public,
many children will be substantially relieved.
Let the teachers keep up their good work and
act upon this suggestion, or any other that
will tend to accomplish the main object.

FINANCE AND TRADE.

A Discouraging Report from the Great
Commercial Agencies.

NEW YORK, March 21.—R. G. Dun &
Co.'s weekly review of trade says: Movement
toward better things is still the ex-
ception. There is better business in shoes
and small industries, and there has been a
squeezing of short sellers in cotton. But
the general tendency of industries and
prices is not encouraging, and those who
were most hopeful a month ago are still
waiting, not so hopefully, for the expected
recovery. Causes of continued depression
are not wanting. Bad weather has cut off
much business, and especially in country
districts. Some failures of consequence
have caused special caution.

The root of the business is that in many
departments men bought more and pro-
duced more when prices were mounting
and everybody was rushing to buy last
year than they have yet been able to sell.
That the buying was of a nature to entice
potential consumption for many months
they were fully warned, but they had more
hope than observation, and went on piling
up goods. Some are organized today in
the same hopeful anticipation of a demand
which has not yet appeared.

Bradtrees' review says: General trade
throughout the United States for the first
quarter of 1896 is disappointing. When
the improvement in industrial and com-
mercial lines between March and Septem-
ber, 1895, is recalled, occurring as it did,
two years after the panic of 1893, reason
would seem to have been behind the con-
fidence that the current calendar year
would bring a general revival. But the
most favorable reports at this time are
those which declare the volume of busi-
ness only equal to, in a few instances in
excess of, the like time one year ago.

Look Out

for breakers ahead when pimples, boils, car-
buncles and like manifestations of impure
blood appear. They wouldn't appear if your
blood were pure and your system in the right
condition. They show you what you need—
a good blood-purifier; that's what you get
when you take Dr. Pierce's Golden Medical
Discovery.

It carries health with it. All Blood, Skin,
and Scalp Diseases, from a common blotch
or eruption to the worst Scrofula, are cured by
it. It invigorates the liver, purifies and en-
riches the blood, and causes every organ into
healthful action. In the most stubborn forms
of Skin Diseases, such as Salt-rheum, Eczema,
Tetter, Erysipelas, Carbuncles, and kindred
ailments, and with Scrofula in every shape,
and all blood-taints, it effects perfect and
permanent cures of the worst cases.

DID NOT NEED THE WARNING.
The Plain Reason Why Heart Disease
Claims Many Victims.

If the many who, in some degree, are
troubled with affection of the heart would
but keep near them a remedy which would
ease trouble before it assumes more serious
conditions, life would many a time be saved.
This is one of the most striking elements of
Dr. Agnew's Cure for the Heart. When
palpitation, dizziness, that terrible smother-
ing feeling, shows itself, a single dose of this
medicine taken promptly will remove the
immediate trouble, and a little perseverance
in the continuation of the medicine will
banish the disease. Sold by S. P. Kirlin.

WASHINGTON, March 21.—Medical In-
spector Kershner is no longer an officer of

the findings of the court which sentenced
Dr. Kershner to dismissal for violation of
naval regulations. A letter notifying
Dr. Kershner of the president's action was
mailed to his apartments in the Union
League club, in New York, and an order
was then issued dropping him from the
roll of the navy.

"DR. MILES,"

Through His Nervine is a Ben-
efactor to Thousands."

A WIDELY known Wisconsin publisher,
March 6th, 1896, writes as follows:

"Five years ago I became so nervous that
mental work was a burden. I could not rest
at night on account of sleeplessness. My
attention was called to Dr. Miles' Restora-
tive Nervine, and I commenced to use it
with the very best effect. Since then I
have kept a bottle in my house and use it
whenever my nerves become unstrung, with
always the same good results. My son also
takes it for nervousness with like never failing
success. I have recom-
mended it to many and
it cures them. All who
suffer from nerve
troubles should try it.
It is free from narcotics, perfectly harm-
less, and yet soothes and strengthens. Dr.
Miles, through his Nervine is a benefactor
to thousands."

Fatal Shooting in the Regular Army.

result of a slight misunderstanding at the
breakfast table, which it was agreed to settle
with gloves, Private Daniel M. Call
and Private Allen, Company A, Fifteenth
United States Infantry, are in the post
hospital, wounded. Call got the best of
Allen in the fist encounter, and Allen
procured a pistol and returning shot Call,
the ball entering near the groin. In at-
tempting to disarm Allen the pistol was
again discharged, and Allen was shot in
the leg. Call will probably die.

Not to be Trifled With.
(From Cincinnati Gazette.)

Will people never learn that a "cold" is an
accident to be dreaded, and that when it
occurs treatment should be promptly applied?
There is no knowing where the trouble will
end; and while complete recovery is the
rule, the exceptions are terribly frequent,
and thousands upon thousands of fatal il-
lnesses occur every year ushered in by a little
injudicious exposure and seemingly trifling
symptoms. Beyond this, there are to-day
countless invalids who can trace their com-
plaints to "colds," which at the time of
occurrence gave no concern, and were there-
fore neglected.—When troubled with a cold
use Chamberlain's Cough Remedy. It is
prompt and effective. 25 and 50 cent bottles
for sale by Gruhl Bros.' druggists.

Gorman Defeats McCarthy.
WILMINGTON, Del., March 21.—Eddie
Gorman, the Buffalo lightweight, defeated
Tommy McCarthy, of Troy, N. Y., in a
four round go here yesterday afternoon.
This was a continuation of the fight which
was stopped at the end of the second round
in Baltimore last Friday, when the police
interfered. Gorman weighed 135 and Mc-
Carthy 135 pounds. The Troy man put
up a good battle, but was clearly out-
pointed. The knockout blow was a heavy
left jab on the jaw, which had been pre-
ceded by a right lead over the heart, which
dazed McCarthy.

Simon S. Hartman, of Tunnelton, West
Va., has been subject to attacks of colic about
once a year, and would have to call a doctor
and then suffer for about twelve hours as
much as once when they die. He was
taken recently just the same as at other
times, and concluded to try Chamberlain's
Colic, Cholera and Diarrhoea Remedy. He
says: "I took one dose of it and it gave me
relief in five minutes. That is more than
any thing else has ever done for me." For
sale by Gruhl Bros.' druggist.

Brakeman Killed in a Tunnel.
BALTIMORE, March 21.—At Fulton Sta-
tion, near this city, last night, a Western
Maryland freight train was going through
a tunnel which is used by both the West-
ern Maryland and Pennsylvania when the
train broke in two parts. Brakeman
William Elkos stopped the rear section,
but another portion of the train broke
loose from the engine and ran back, col-
liding with those upon which Elkos stood,
throwing him to his death under the
wheels, and killing five men on both tracks
in the tunnel. It took three hours to clear
the tracks. Elkos was 27 years old.

All last winter Mr. Geo. A. Mills, of
Latham, Conn., was badly afflicted with
rheumatism. At times it was so severe that
he could not stand up straight, but was
drawn over on one side. "I tried different
remedies without receiving relief," he says,
"until about six months ago I bought a bottle
of Chamberlain's Pain Balm. After using it
for three days my rheumatism was gone and
has not returned since. For sale by Gruhl

Naval Engineer Prostrated.
WASHINGTON, March 21.—Admiral Sel-
fridge, commanding the European station,
has lost his fleet engineer through phys-
ical collapse. A cablegram received at the
navy department from him at Smyrna
states that Chief Engineer Gilbert MacCar-
thy has broken down, and is partially
paralyzed. He has been invalided home
and will come in care of a medical officer
from the fleet. Chief Engineer Winslow,
of the Minneapolis, will probably be de-
tached to the flagship San Francisco as
fleet engineer. MacCarthy is believed to
have served his last cruise, for he is near
the retiring age. He served with great
honor in the late war.

Texas' Female Regulators.
LACONA, Tex., March 21.—Yesterday
afternoon a party of women came into
the railway station room of the Santa Fe
railway and severely cowhided Dr. Har-
cock, a physician, who recently came here
from Sonoma. The party of ladies de-
manded of him that he leave town at
once and to quit prescribing whisky. He
refused, when a dozen whips were drawn
and 500 lashes administered to the doctor.
He left at once for Honey Grove. It is re-
ported that a warrant will be sworn out
for the arrest of the women. They were
the same women who entered a resort here
last Saturday and prayed for the prop-
rietor and pleaded with him to close.

Two Lives Saved.
Mrs. Phoebe Thomas, of Junction City,
Ill., was told by her doctors she had Con-
sumption and that there was no hope for her,
but two bottles Dr. King's New Discovery
completely cured her and she says it saved
her life. Mr. Thos. Eggers, 139 Florida St.,
San Francisco, suffered from a dreadful cold,
from Sonoma. The party of ladies de-
manded of him that he leave town at
once and to quit prescribing whisky. He

and 500 lashes administered to the doctor.
He left at once for Honey Grove. It is re-
